

Microsoft Dynamics NAV/ Business Central Functional Consultant

Job Title:

Microsoft Dynamics NAV/ Business Central Functional Consultant

Consultant Reporting to:

Co-Founder/Technical Director

About the role:

PragmatiQ Solutions are a Microsoft Dynamics Partner specialising in supporting small to mid sized businesses manage their customer relationships, streamline operations and gain insights from their data, through technology we implement.

We are currently recruiting for a Microsoft Dynamics NAV/ Business Central Consultant. Reporting to the Co-Founder/Technical Director, the objective of this role is to take a consultative approach to implement and deliver Microsoft Dynamics NAV products and services.

Objective of the role:

- To take the consultant role within the application delivery team for Dynamics NAV, including 3rd party applications. Reporting to the Co-Founder/Technical Director, the right person will provide effective delivery of consultancy, through to implementation and delivery and knowledge of Microsoft Dynamics NAV products and services
- Be a team player working closely with other members of the business, as well as partner organisations

Key Responsibilities:

- Consulting – covering all aspects; including presales and supporting the sales team, product demonstrations, analysis and implementation utilising primarily Dynamics 2018 Online and Business Central
- Business and process analysis
- Documenting 'as-is' and 'to-be' within accurate and detailed scoping documents
- Liaising with developers and clients – act as a point of communication
- Quality Assurance & Documentation

Knowledge and Expertise:

- Between 1 - 5 years Dynamics NAV experience
- An understanding of Microsoft Dynamics NAV previous versions i.e 2009/2013/2015/2016 would be beneficial
- Experience of providing pre-sales demonstrations
- Experience of creating demonstration
- Experience of working on NAV implementations
- Excellent communication and problem-solving skills
- Excellent understanding and knowledge of core Microsoft Dynamics NAV modules
- Ability to create high quality functional documentation and strong requirements gathering skills

Person Specification:

- Strong attention to detail and a keen desire to deliver the highest quality solutions to customers
- Experience across a number of industries – ideally strong supply chain or finance experience
- Business analysis
- Client facing skills

Package:

The position offers a competitive salary and benefits plan

Location:

Milton Keynes/Midlands (Potential home working)
